

For University Staff

Practical solutions to create videos for online learning

The Office for the Advancement of Learning and Teaching is here to support you create videos for online learning. There are a number of different ways we can help you engage your students:

Recorded Lectures in the Television Studio

- » We have made the TV Studio (Y-Block Toowoomba) completely available to film your lectures. Rather than using YouTube videos, create your own content videos. Send us an email with some possible dates and times and include your slides and/or script. We will film you, professionally edit, divide long lectures into chunks, help design interactive student activities between the videos and help load it onto StudyDesk.

Skype, Zoom and Mobile Recordings

- » Shoot your own video using Skype, Zoom or your mobile and upload the video to the cloud (as below). We will top-and-tail and professionally edit including graphics, animation and on-screen text. We will help you design accompanying interactive student activities and help load it onto StudyDesk.

Podcast Episodes and Series

- » Students, especially busy ones, enjoy listening to engaging podcasts. We are ready to support you in our audio studio. First-timers are welcome and invited. Send us an email with some possible dates and times and include your script if you have one. If not, we will create it together. Record a single episode or a series. We will help you load onto StudyDesk.

Great, how do I sign up?

Send an email to oalt@usq.edu.au with your thoughts. We will reply to discuss the details. If you have a recording ready for editing for your course, upload it to the Cloud at https://tiny.cc/DLAV_inbox
