HAZARDOUS SUBSTANCES AND MATERIAL SAFETY DATA SHEETS.

If you bring any hazardous substance to the McGregor School, please ensure that you obtain a MSDS (Material Safety Data Sheet) from the supplier or obtain one from the manufacturer of this substance.

To do this, either ask the supplier from whom you purchase the hazardous substance or read the contact details on the hazardous substance and contact the manufacturer and ask for a MSDS. Once you have obtained the MSDS, bring it with you to the school, and hand in a copy to the McGregor School office, or the Tutor.

Hazardous substance can be: e.g. solvents, acids, some paint and glues, chemicals, fixatives, fluxes and solders.

If you are unsure, the Supplier and or manufacturer should be able to inform you if the substance is classed as hazardous.

WORKPLACE HEALTH AND SAFETY – IMPORTANT!!

As the McGregor Schools are the responsibility of the University of Southern Queensland all provisions of the Workplace Health and Safety Act and Regulations must be followed.

- A copy of each MSDS must be provided in each room or area that the hazardous substance is to be used
- All students must be informed of the MSDS before the Hazardous substance is used and students must be instructed to read the MSDS
